Occasionally memes or feeds will come through to me on Facebook about the cosmos and the earth. Some go along the lines of showing how massive space is, and try to state how insignificant earth and people are in relation to it. It really is the other way around. God the Creator of heaven and earth loves us so much, He created the earth and created us from it. In His eyes, we are that significant to Him that He sent His Son here to die for us!

God bless, David
